2012**

Sheridan College

Skills

HTML

CSS

Sass/Scss

Javascript

ES6, Node, React

Development Tools

NPM, Git, Gulp, SourceTree, SVN,
Webpack

Prototyping Tools

Balsamiq, InVision, Adobe XD

Adobe Creative Suite

AfterEffects, Illustrator, Photoshop

Caitlin Haaf

Front-End Developer

I am looking for a position where I can continue my work with design systems, create engaging user interactions, and feel like an integral part of a team. When not at work, you will find me working on a new quilting project, listening to a true crime podcast, or walking my dog through High Park.

Work History

Software Developer

FlightSafety International eLearning Department

April 2016 - present

Worked on the design and development of a major overhaul of the user interface for eLearning courseware.

Continued development of new eLearning interface features (i.e. language translation, gamification elements, testing/quizzing interactions) with templates and documentation for the design team to implement.

Design and development of web apps to accompany courseware.

Peer Tutor

Sheridan College Library Services

November 2015 - April 2016

Assisted peers with concepts relating to HTML, CSS and Javascript.

Courseware Developer & Designer

FlightSafety International eLearning Department

May 2012 - August 2015

Developed video content for eLearning courseware.

Designed layouts for associated courseware materials (i.e. course handouts, Powerpoint presentations) and marketing materials (i.e. email campaigns, brochures, web banners).

Wrote scripts for various eLearning courses, and assisted with instructional design duties.

Volunteer History

Mentor/Event Volunteer

Ladies Learning Code

December 2015 - present

Assisting learners in single day workshops covering basic computer skills, HTML/CSS, and Javascript/jQuery.

Mentor

CoderDojo Toronto

May 2017 - present

Assisting with monthly meet ups, helping participants with projects ranging from Scratch games, HTML/CSS pages, and hardware.
